## Rotary Tools - (cont.)

**Do not allow handlessly guided free "sawed" use of your rotary tool to become commonplace. Always remember that a careless fraction of a second is sufficient to inflict severe injury.**

**Do not alter or remove tool, any alteration or modification is a misuse and may result in serious personal injury.**

**This product is not intended for use as a dental drill or in medical applications. Serious personal injury may result.**

When using the steel saw, cutoff wheels, high speed cutters or longstem carbide cutters, always have the work securely clamped. Never attempt to hold the work with one hand while using any of these accessories. The reason is that these wheels will grab if they become slightly curled in the groove, and can kickback causing loss of control resulting in serious injury. Your second hand should be used to steady and guide the hand holding the tool. When a cutoff wheel grabs, the wheel itself usually breaks. When the steel saw, high speed cutters or longstem carbide cutter grab, it may jump from the groove and you could lose control of the tool.

**Wealth can become a vital  
measure of our hearts and of  
our relationships with people.**

**1. Like time, wealth is fleeting.**

**FREE YOUR MIND and THINK**

**When told the reason  
for daylight savings  
time the Old Indian  
said, "Only the  
government would  
believe that you could  
cut a foot off the top  
of a blanket, sew it to  
the bottom, and have  
a longer blanket."**

# 1 Timothy 6:10

**“For the love of money is a root of all kinds of evil. It is through this craving that some have wandered away from the faith and pierced themselves with many pangs.”**
