

# MAKE IT STICK

5 Simple Ways You Can Make This Lesson Stick With your Kids

## Easter Science 1

### THIS WEEK'S LESSON: THE PRAISE EXPERIMENT

#### IN THE CAR:

Ask your child what they learned about this week on the drive home:

When Jesus came into Jerusalem, the entire city came alive with excitement and celebration because they thought Jesus was going to become their king. They didn't realize that he was already their king, but that he would have to die for their sins and then do what seemed to be impossible - come back to life. Kids will learn that we should praise God for doing the impossible for us at Easter. Mark 11:1-10, Palm Sunday

#### HANGING OUT:

Make this week's lesson real:

Try this week's science experiment at home, and see if you and your kids can do the impossible:

<https://www.stevespanglerscience.com/lab/experiments/egg-in-bottle/>

#### AT DINNER:

Here are some great discussion starters:

- Why did the people welcome Jesus to Jerusalem with palm branches?
- How did Jesus do the impossible for us?
- What are some reasons we have for praising God?

#### AT BEDTIME:

Quiz your child on this week's memory verse:

*"When anyone lives in Christ, the new creation has come. The old is gone! The new is here!" 2 Corinthians 5:17 (NIV)*

#### PARENT TIME:

What you need to know:

We challenged the kids to find a reason to praise God every day this week and in the weeks leading up to Easter. You can encourage the kids to voice their praise each day by asking them something good God has done for them that day.
