Introduction

The Presbyterian Church (U.S.A.) is one ecclesiastical body with its General Assembly, synods, presbyteries, and sessions as parts thereof. Its mission is one which includes but is not limited to:

- the communication of the Gospel to all people
- the establishment and nurture of communities of faith
- mutuality in witness and ministry with other Christian churches
- cooperation, to the extent possible, with secular organizations having common goals with the mission of the Church of Jesus Christ
- the self-fulfillment of all people in the nation and the world.

This Real Estate Policy affirms that, with regard to real property the basic responsibility of the Presbytery is one of stewardship. An attitude of stewardship is prompted by thankfulness to God for physical resources which help to make mission possible, and yields a commitment to manage these resources in ways that permit their most effective, appropriate use for mission.

Article I - All Real Estate Held In Trust

“All property held by or for a congregation, a presbytery, a synod, the General Assembly, or the Presbyterian Church (U.S.A.), whether legal title is lodged in a corporation, a trustee or trustees, or an unincorporated association, and whether the property is used in programs of a congregation or of a higher council or retained for the production of income, is held in trust nevertheless for the use and benefit of the Presbyterian Church (U.S.A.).”

(BOOK OF ORDER, PRESBYTERIAN CHURCH (U.S.A.) G-4.0203)

Title - Washington Presbytery of the Synod of the Trinity of Presbyterian Church (U.S.A.) is incorporated under the provisions of the Non-Profit corporation Law of the Commonwealth of Pennsylvania under the title, “Washington Presbytery of Pennsylvania.”

Article II - Types of Real Estate

All real estate held by the Washington Presbytery, however titled, is a resource of the one Church to be utilized for the enabling, facilitating, and enhancing of the mission of the Church through all its parts. Synods, presbyteries and sessions, may own and manage properties outside this policy.

A. Purposes and Exclusions

1. This Real Estate Policy intends the maximum use of resources for active mission.
2. This Real Estate Policy applies only to property acquired, held, and deployed by the Washington Presbytery in accordance with the Constitution of the Presbyterian Church (U.S.A.). Requirements governing real property held by particular churches, synods, or presbyteries are stated in G-4.02 of the “Book of Order.” In this regard sections are intended to apply to property owned by churches.

B. Property Used Contrary to Constitution

“Whenever property of, or held for, a congregation of the Presbyterian Church (U.S.A.) ceases to be used by that congregation as a congregation of the Presbyterian Church (U.S.A.) in accordance with this Constitution, such property shall be held, used, applied, transferred, or sold as provided by the presbytery.” *(BOOK OF ORDER, PRESBYTERIAN CHURCH (U.S.A.) G-4.0204)*

C. Domestic Property

Domestic properties may be described as:

1. Session-related: currently utilized for programs directed by sessions;
2. Presbytery-related: currently utilized for programs directed by presbyteries;
3. Other:
 - a. undeveloped lands not currently utilized for programs;
 - b. donations and bequests of real property not needed or not adapted for current mission use;
 - c. cemeteries;
 - d. properties whose previous use has changed as a result of a change in mission rationale;
 - e. property held by the Presbytery for income pending appropriate disposition (such as oil, gas, or mineral rights).

D. Responsibility for Domestic Property

1. The Presbytery as title holder has corporate responsibility for insuring that all matters pertaining to property taxes, insurance, maintenance, and improvements are administered according to appropriate policy and procedures.
2. When title is exchanged or transferred in accordance with this approved Real Estate Policy, the Presbytery assumes no further obligation for the responsibility of ownership as of the date of exchange or transfer.
3. The Presbytery Trustees have the responsibility to make recommendations to Presbytery

concerning architectural and financial plans for the erection of, or addition to church and Presbytery buildings. Any substantial changes to previously approved architectural or financial plans must be resubmitted for additional approval.

Article III - Acquisition, Leasing, or Disposition

A. Selling, Encumbering, or Leasing Church Property

“A congregation shall not sell, mortgage, or otherwise encumber any of its real property and it shall not acquire real property subject to an encumbrance or condition without the written permission of the presbytery transmitted through the session of the congregation.”

(BOOK OF ORDER, PRESBYTERIAN CHURCH (U.S.A.) G-4.0206a)

The following procedure must be followed for the sale, purchase, mortgage, or other encumbrance of any real estate by a church, the lease by a church of any real estate used for purposes of worship; or the lease for more than five years of any real estate owned by a church:

1. As required by both Pennsylvania law (16 Pa. C.S.A. Section 5546) and by the Book of Order (Section G-1.0504d) both the trustees and the corporation at duly constituted meetings must approve the transaction, including approval of all the details and terms of the transaction. Often, this presents the logistical problem of entering into an agreement prior to securing such approval. In such case, the agreement can only be entered into with the express provision that it is subject to and contingent upon securing all approvals required by law and the Book of Order from the trustees of the church, the congregation of the church and Washington Presbytery.
2. The transaction must be reviewed and approved by the Board of Trustees of the Presbytery.
3. The transaction must be reviewed and approved by Washington Presbytery at a duly constituted meeting.

B. Acquisition, Leasing, or Disposition

1. Acquisition/Capital Improvements:

Requests for property acquisition or capital improvements to church property must be through the session to the Board of Trustees of Washington Presbytery.

2. Site Acquisition General Provisions

- a. The location of the site shall meet presbytery/synod mission program strategy requirements based on appropriate demographic studies of the community to be served. Up to \$1,000 of the cost of such study may be included in the cost of the site.
- b. Location of the site shall respond to energy conservation needs in regard to transportation to and from the site, and to orientation of future building construction.
- c. The stewardship of land and financial resources recommends sites of not more than ten (10) usable acres.
- d. A professional real estate appraisal is required to determine the fair market value of the site. The appraisal fee may be included as part of the total site purchase cost.
- e. The following tests shall be obtained with satisfactory results prior to the closing of the purchase contract:
 1. Soil test for compaction to determine the load bearing capacity of the soil structure;
 2. Soil test for percolation to determine the ability of the soil structure to absorb water. This test is waived in the event the site is connected to a city sewage system;
 3. A disclosure statement from the seller, duly notarized, and under penalties of perjury, that includes a description of the property and the uses of the site by the seller and all known prior uses, ascertaining that the seller knows of no past,

- present, or future environmental conditions that contaminate the real estate.
- f. If the seller's disclosure statement indicates a potential environmental liability, an environmental audit to provide a general assessment of the site, identifying actual or potential environmental risks is recommended. If the risks are discovered, and the presbytery or church continues to pursue the purchase of the property, environmental testing will be required which will confirm or refute the presence of contamination or environmental hazard with an estimate of clean-up costs.
 - g. If hazards exist, and the presbytery or church continues to pursue the purchase, an action plan for clean up must be submitted by the seller, at the seller's expense, prior to the site purchase. A contract should not be signed until such issue is clarified. If the seller refuses to pay for the clean up, the Washington Presbytery recommends that the contract for purchase be declared null and void.
 - h. Sites may be purchased by a presbytery five years in advance of site development. If site development does not occur within the specified period, the development plans are subject to further review by the Board of Trustees, Washington Presbytery.
 - i. The use of the future church facility and the type of construction shall comply with all applicable building codes and zone regulations.
 - j. Disclosure report(s) must be obtained from appropriate governmental regulatory agent(ies) or others, and evaluated before a purchase is begun for such hazards as mine subsidence, abandoned oil, gas or water wells, underground storage tanks, etc.
3. To facilitate the accomplishment of authorized mission program through the use of property, the Presbytery may through the Board of Trustees:
- a. acquire, lease or otherwise secure the use of real property for mission program
 - b. exchange property for property of at least equal market value (See Appendix A);
 - c. exchange property for property of less than equal market value when such exchange serves the mission program of the Church and is justified by the Presbytery on the basis of established priorities;
 - d. sell or lease, at no less than market value, property not needed for mission program use as determined by the Presbytery,
 - e. sell or lease, at less than market value, property not needed for mission program use when such sale or lease produces resources which enhance the mission of the Presbytery and is justified by its established priorities.
 - f. propose to Washington Presbytery the sale or lease of properties not in active mission program use for which exchange or transfer is neither required nor feasible;
 - g. hold, pending appropriate disposition, property not in active use.
4. Leasing of Non-Owned Property For Presbytery Use
- "A congregation shall not lease its real property used for purposes of worship, or lease for more than five years any of its other real property, without the written permission of the presbytery transmitted through the session of the congregation."

- a. property classified as "Not Required For Mission Program Use" shall be sold for a sum at least equal to the market value
- b. should such sale be untimely or otherwise delayed, the property may be leased at market value for a period not to exceed three (3) years, at which time the salability shall be reviewed;

9. Sale At Less Than Market Value:

Property classified as "Not Required For Mission Program Use" may be sold or leased at less than market value if its proposed or projected use will enhance the mission program of the Church as determined by the Washington Trustees and must receive concurrence from Washington Presbytery Council.

10. Property shall not be sold at less than market value to private entities unless approved by Washington Presbytery.

11. In no case shall property be sold at any price to current employees or to former employees terminated or retired within three (3) years.
