HPRC (HUNTSVILLE PREGNANCY RESOURCE CENTER)

CLIENT STORIES

Ultrasound Experiences - Suzy (name changed) had had four abortions and was experiencing shame and grief. She was here for an ultrasound. As the nurse used the probe to focus the picture on the screen, Suzy saw her baby and immediately began crying. She did not think God would give her another opportunity to be a mommy because of her previous decisions. Suzy sobbed throughout the entire ultrasound. While she still has some healing to work through, Suzy is beyond thrilled about her pregnancy. We offered her our Crowned class for post abortive support and healing. I truly believe Suzy's relationship with the Lord is strong and that He will lead her into forgiveness. - Lisa - Client Services Coordinator

Men's Ministry Experiences - I recently met with a disabled veteran who had suffered a broken back and was medically discharged. During Covid, he struggled and endured financial and personal hardships which made holding a job difficult. He and his girlfriend had a positive pregnancy test, and he was overwhelmed with the responsibility that is in front of him. It weighs on my heart that he is in such a difficult position, particularly after his service and sacrifice to our country. I want to help. I want to "fix it." I cannot. I can offer him hope in Christ and let him know he is not alone and he is loved. I believe he left HPRC encouraged. They are excited about their baby and believe there is a purpose for this new life. I pray God will meet their needs and help us to be able to come along side as His hands and feet. I pray they will see Him do miracles. I know He can.

- Darin - Men's Ministry Director
